

## THE FLOOR ZONE

FLOOR BUILD UP FROM  
SUBSTRATE TO FINISH...

Flowcrete UK has developed the Floorzone concept so that any development, regardless of scale, scope or sector, can make their supply chain more efficient by sourcing every element of the floor direct from one supplier, with one point of contact and under one manufacturer's warranty.

Single source supplier for full floor build up

Durable sub-floor screeds for level finish

Reduced noise pollution with acoustic foam layer

Fast cure flooring systems available

Resin finishes in a broad colour variety

A high performance finish for high traffic areas

Luxurious, highly decorative finishes

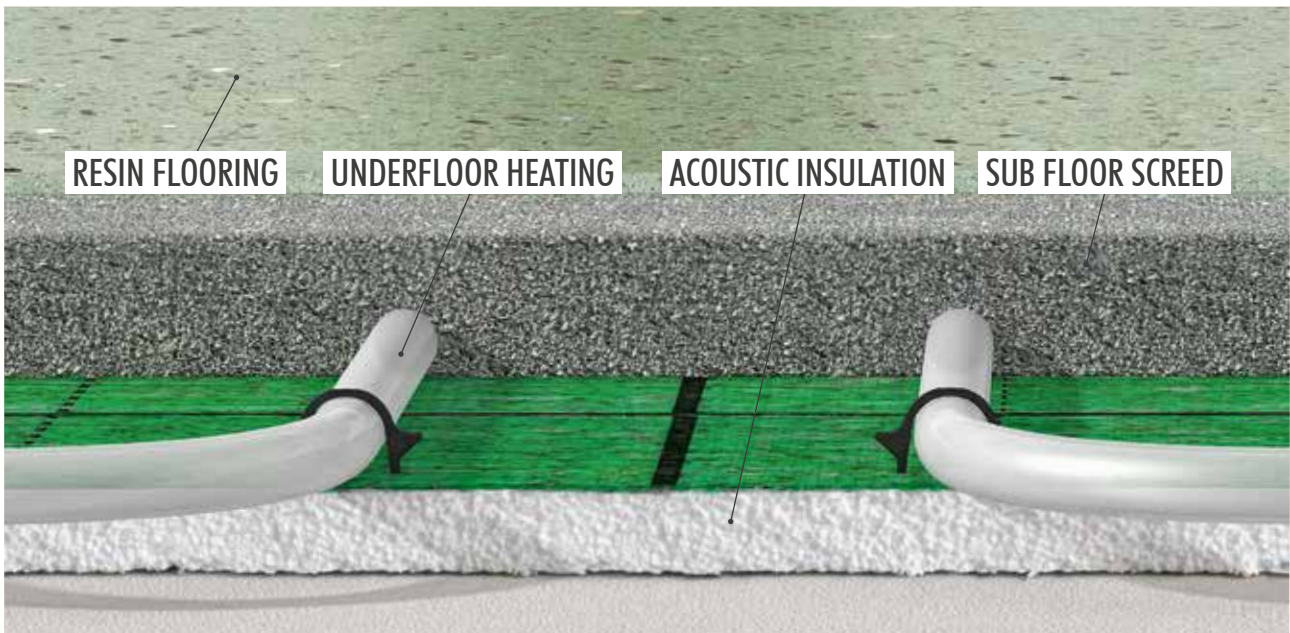

Easy to maintain flooring solutions

Resistant to chemicals and cleaning agents

# THE FLOORZONE SOLUTION...

FULL FLOOR BUILD UP FROM A SINGLE SUPPLIER

## Resin Floor Finish

Flowcrete's decorative commercial flooring solutions are designed to create an impact. They can be installed in bespoke designs while Flowfast quick cure MMA is available in a range of flaked or quartz finishes and cures in under two hours!

## Sub-floor Screed

Isocrete Floor Screeds provide a level surface prior to the installation of floor finishes and are available in a range of formulations, including environmentally-friendly OPC free, fast cure, heavy duty and self-levelling pump-applied.

## Underfloor Heating

Compatible with Isocrete Floor Screeds, Isowarm Underfloor Heating delivers controllable heat. Delivering energy cost savings of up to 30% when compared with conventional heating systems.

## Acoustic Insulation

Designed to reduce the passage of airborne sound between levels in multi-occupancy facilities. Acoustic insulation exceeds requirements of Approved Document E of the Building Regulation 2010.
