Peran STC

Product sheet

Product description
Peran STC is a 2-component, epoxy-based, clear resin system. The product has good resistance to light, good durability to early contact with water (24 hours @ 20°C), and a high resistance to chemicals. Peran STC is completely crystallisation-free.

Uses
Peran STC is used as a primer, binder and topcoat, primarily in systems with decorative aggregates and flakes.

Environment & Health
Peran STC is a solvent and nonylphenol free product, and practically odourless during application. Follow the appropriate Occupational Health and Safety guidelines applicable to the location where the application is undertaken. For more information, please refer to the safety datasheets for the individual components.

Ratio of components
2 parts of component A are mixed with 1 part of component B, by weight.
1.7 parts of component A are mixed with 1 part of component B, by volume.

Add all of Hardener B to Base A. Mix with slow speed drill and helical spinner, taking care not to entrain air.

Application temperature
The recommended substrate temperature is 15 - 25°C, but no less than 10°C. The temperature of the substrate should exceed the “dew point” by 3°C during application and hardening. Temperatures should not fall below 5°C in the 24 hrs after application.

Application time/pot life
Ready-mixed product should be used within 30 minutes at a temperature of 20°C. At higher temperatures the application time is shorter.

Curing time (at 20°C)
Can be overcoated after 15 hours.
Can be walked on after 15 hours.
Maximum overcoat time 24 hours
The product is fully hardened after 5-7 days.
High humidity in the early stages of cure can result in white, matt surfaces (blooming).
Do not cover or wash within the first 16 hours of curing.

Colours
Clear
Solids content
Approx. 100%

Finish
Gloss

Density
Component A approx. 1.16 kg/l
Component B approx. 1.01 kg/l
A+B approx. 1.10 kg/l.

Storage
12 months in unopened pack.
Storage temperature between 5 and 40°C.
Protect from weather and moisture/contaminant ingress.

Packaging
The product is delivered A+B in the following packs:
